Introduction

Innovative Engineering Company Ltd. (IECL) was founded in 2009, backed by a team of competent, professional and highly experienced personnel. The establishment grew within a short period and has built its reputation on a commitment of providing better and efficient services. We perform as a prime contractor who safely executes high quality industrial, electrical, mechanical, civil and structural projects. Created to consolidate the various large scale infrastructure and investment projects that contribute towards Saudi Arabia's economic, social and industrial developments. IECL has constantly worked in tandem with these sectors towards a single goal - the good of tomorrow.

Our strategies, structure and systems have been focused on creating constant customer satisfaction by delivering our customers with the services, solutions and products that are qualitative and cost effective. In the quest for becoming regional, national and international players of the industrial world, we have been tapping on the talents of our human resources, prevalence of rational decision making and forward planning in the most synchronized manner.

Our Vision

To be recognized as a General Construction Contractor and Construction Materials Supplier to the Petrochemical and Industrial Projects in the GCC Region.

Our Mission

To satisfy our customers with the highest standards of quality, reliability, and trust in our services for our mutual benefit. Achieving excellence and high level of efficiency in all our domains through creating high value for our customers based upon the highest degree of performance and quality.
